

Church Council
Electronic Vote, 5-2-19

The Property Team is requesting authorization for spending \$1,360 from the Building and Grounds fund to have a cellular radio installed, so that our fire alarm system is functional.

Our internet provider, Fairlawn Gig updated our phone service to a voice over IP service. The alarm system cannot communicate to voice over IP.

Motion made by the Property Team and seconded by Pastor Jean.

The Council approved the motion.
