

Youth Charity Foundation Thailand Yearend Report

This year has been good to the foundation; Covid isn't a worry any longer and our children are doing well. The end of this school year saw two of our children, Suteen and Amarapon graduate from high school. Suteen has chosen to leave the foundation and find a job. Amarapon is attending Chiang Rai Rajaphat University where she is majoring in English.

The school year started out well for the children. Watanyu and Cindy are currently in 8th grade, and Mai is in 9th grade. Ton is our newest student; he's been at the foundation for the past 7 years and is currently 14 years old. He is thrilled to be part of "Faith's Kids".

The children are expected to help with the planting of rice and the growing of vegetables, skills that are important in a country where agriculture is a main part of country's livelihood. Besides helping grow the food they eat, the older children help out by taking care of the younger children at the foundation.

Youth Charity Foundation is a non-profit organization that is now supporting 51 children. It depends on the generosity of others to help with the support of the children in their care. I'm pleased to report that we were not only able to meet our goal of \$6,500.00 in 2023 but we actually exceeded it thanks to the generosity of Faith's members. We are in our 2024 campaign and hope to be able to raise \$6,500.00 again to support our children. We only have a few months left in which to do so.

The children send their love and thanks for your help and wish everyone a healthy and happy 2024.
